

**1** - First, colour all parts of the picture, except the sign area, which should remain white.

Next cut out on the heavy line and outline (around Smokey).

Cut the slots for the rotating sign panel, between 1-2 and 3-4.

**2** After colouring the panels the colours as shown, cut out on the heavy line on the outside.

Fold this strip backwards on the light lines.

Where can you find the Fire Danger rating?

Go to [BCWildfire.ca](http://BCWildfire.ca).

Choose Fire Weather (on left).

Choose the Fire Danger Map, and find out the Fire Danger where you live.

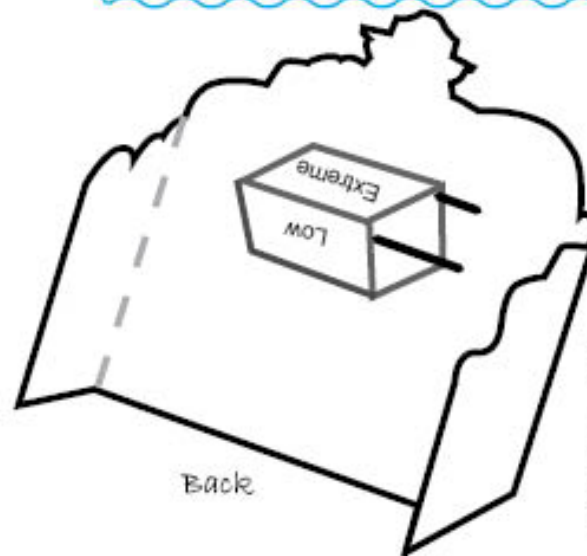

**Help Smokey!**

Smokey and the Wildfire Management Branch need your help!

The sooner firefighters know about forest fires, the sooner they can respond.

If you see smoke from a wildfire, call it in!

**Cell - \*5555 Telephone - 1-800 663-5555**

**3** Insert folded strip into the slots in the sign, 1-2 and 3-4, then glue the small flap to the back of the red panel. Turn through the slots to the rating desired.
